

"U" System Keg Valve

### "U" System - Keg Coupler - Tap w/ Ergo Lever Handle

The G40801 is exclusively used with Magners Draft Beer. Please see our website for an expanded listing of beers that use the "U" system valve.

The keg coupler connects to the keg valve, "tapping" the keg. Both the gas line from the CO<sub>2</sub> tank / regulator and the beer hose to the beer faucet attach to the coupler.

### Keg Coupler Features

- Well-type connection
- Stainless steel probe
- Easy to engage: push down to tap/pull up to untap
